

# DXC Homebuilder One: An end-to-end Microsoft-based homebuilding technology solution

Implemented by DXC, global leader for the Microsoft Dynamics platform

As a homebuilder you need a modern fully integrated business system with the benefits of an **Enterprise Resource Planning (ERP)** solution that can:

- Scale up or down on demand
- Quickly adapt to changing market needs
- Address challenges related to long-established legacy systems with limited functionality

Selecting and implementing the correct solution can be difficult and getting it right will save businesses a significant amount of time and money.

## **Designed around industry best practices, by industry leaders**

Built on Microsoft Dynamics, the DXC Homebuilder One solution is the most comprehensive end-to-end ERP solution in the homebuilding industry, and enables homebuilders to:

- Optimize business processes and operations
- Make timely business decisions based on enterprise-wide reporting
- Build more homes with greater efficiency to a higher level of quality

## **Best-in-class construction solution**

- Reduces margin erosion
- Leverages the flexibility of cloud hosting and mobile access to be the most comprehensive ERP on the market
- Enables a seamless management of site and house construction events
- Applies intelligent data management for enhanced reporting and analytics
